

LELAND

# Omena

Created by 2B Studio - Will Oltman for Leland

We see this natural phenomenon is echoed across the sky, water, and land. And it's something we've captured in the new gradients for our Omena chair.

## Gradients of Nature

There has been a movement to bring outdoor elements into the places where we work and play.” Harnessing this philosophy, 2B Studio created our organic-feeling collection of chairs and stools. And now, our new gradient options are embracing the same idea of bringing the outside world inside.

## At First. At Last.

This method of applying color is unlike anything available in the commercial furniture industry today. And it's another chapter in Leland's story of color—something we've embraced and pushed forward since day one.

“The Omena chair is inspired by the serene shorelines of Lake Michigan. We found a vast variety of form, texture and color and we wanted to bring that expressiveness indoors.”
