camira

Camira is an award-winning UK textile innovator, which designs and manufactures its own unrivalled range of distinctive, environmental wool upholstery textiles. They feature unique European styling and quintessential British tailored design in deep-dyed intensely saturated color palettes. In North America the fabrics are stocked in Indianapolis and serviced by the yard. Camira does business on a global basis, selling 10 million yards annually to over 70 countries worldwide. The company is registered to ISO 9001 (quality), ISO 14001 (environment) and is a holder of the Queen's Award for Enterprise in Sustainable Development.

maharam

A fourth generation family-run company that celebrated its centennial in 2002, Maharam pioneered the development of engineered textiles for commercial application. Though product performance defines contract textiles, Maharam strives to create innovative materials through in-depth exploration of pattern, material and technique. Maharam pursues a holistic approach to design, embracing a range of disciplines including architecture and interiors, furniture, fashion, accessories, graphic and digital design. The Maharam Design Studio is responsible for the development of an extensive textile collection and maintains a strong focus on new technologies and cultural markers, often finding inspiration beyond the textile industry, including collaborations with avant-garde industry outsiders.

Stinson®

At CF Stinson, we've been working hard keeping our customers satisfied for three generations. We are a Midwestern company with origins in textile distribution to architects, designers and furniture manufacturers. Since 1952, we have created innovative textiles for our clients in the hospitality, healthcare, education and corporate markets. We consistently exceed design, performance, service and sustainability standards, and have been awarded for our work through industry recognition. Our fabrics have evolved over the past six decades thanks to research, great design and technology. Our goal has always remained the same: to create interesting and innovative textiles that work. Since the very beginning, we have explored new ways to make our products exceed customer expectations, and we will continue this tradition into the future.
