

# Mass Chair

LELAND

Design: ITEMdesignworks, licensed by Sellex

## Form. Function. Flow.

From a distance, the Mass Chair seems simple and straightforward. But look closer and you'll discover subtle nuances that make it different from other chairs of its kind. Sit down and that's when it all connects. From the gentle curves of the seat to the continuous outlines of the base, this is a high-density design at its finest.

Lightweight and effortless, strong and space-efficient, Mass is a fitting place to create with your community.
