Due to the variety of floor surfaces on which the Pluto Bench may be installed, floor mount fasteners are not supplied by Leland International. The Pluto Bench floor mount feature consists of three .5" thru holes designed to use .3125" or .375" threaded studs. Leland International recommends at least 2" of exposed thread length from the floor surface.

Responsibility of fastener choice is the customer's.

Floor Mount must be specified at the time of purchasing.

The Floor Mount cannot be added later in the field.
